WOOL MARKET.

SWUNG FOR MURDER

SLAYERS OF MATE FITZGERALD PAY WITH TH IR LIVES.

in San Quentin Prison, California, the Exeection Takes Piace of St. Clair and Hansen, Convicted of Murder on the High Seas-Illanen Meets His Fate Without Compaint but St. Clair Argues His Innocence Irom the Circumstances of the Case, and Complains of the News-

San Quentin Prison, California, Oct. 3.-Thomas St. Clair and Hans Hansen, the murderers of Maurice Fitzgerald, mate of the bark Hesper, were hanged in the loft of the jute mill at the prison at 2:04 o'clock this afternoon. The executions were witnessed only by United States Marshal Baldwin, four leputies and twelve directors. Newspaper men and others were excluded in eccordance with a wish said to have been expressed by Hansen. Death in each case ensued speedily, the necks of both men being broken by the fall.

Hansen and St. Clair spent the morn-ing with Fathers Logan and Gallagher. Hansen seemed reconciled to his fate and assisted the deputies to adjust the Mtraps on his ankles as he stood on the trap. Just before the black cap was drawn over his head, he smilled as he looked at the deputies around him and said: "Well, good bye, boys, I am thankful to you all."

St. Clair left a long rambling state-ment for the press in which he recited

the incidents in connection with the murder and argued, on the showing of the circumstances presented that he could not have been guilty of the mur-der of Fitzgerald. He said that his trial was unfair from the fact that interested persons had caused the publication of articles in the newspapers which prejudiced the jurors against him The executions are said to have been a successful as any that ever took

place in the prison.

St. Clair's remains were placed in charge of a San Rafael undertaker. Hansen's body was turned over to an undertaker from San Jose, where it will be buried by a Danish society.

MARKETS FULL OF FRUIT. Thousands of Bushels of Apples Botting in Ohio Orchards.

Cincinnatti, O., Oct. 18 .- Millions of bushels of fruit are going to decay along the river because of the close of navigation. One of the agents of a packet company writes that on the farms where it would require too long a haul to railroads and the towns that depend upon the river for their sup-plies, that apples, peaches, pears and grapes are lying rotting away because they cannot be shipped to market. Be-tween Cincinnatti and Evansville he estimates that 150,000 barrels of ap-ples alone will be lost by decay to say nothing of potatoes and other articles of produce. At the little port of Amsterdam, Ind., there are over 2,000 barrels of apples that have been out on the wharf awaiting shipment nearly two weeks. In many instances the orchard owners have quit gathering the fruit and expect to let it decay on the trees because they know they cannot dispose of it if they gather it. Such a condition of things, old-timers say, were never known gefore in the Ohio valley, and the outlook for water in the tiver is very discouraging. The river s lower now than it has been since 1860 Athletic club. ith one exception. Today it records stage of only two feet six inches. It is so low in many places that it is becoming stagnant and there are pools

of greasy substance on its surface. In Cincinnatti Tuesday there appeared to be a complete glut of the market on fruits. Along the fronts of the commission houses peaches and other fruits
were piled and stacked on every available inch of sidewalk and even the
street was built up with boxes and
against prohibition. packages as far out as possible, there being but a single narrow track for letters yesterday from Governor Mor-

demand for peaches and the prospects that all fruit houses are full up on such peoducts. Apples and pears will con-tinue to hold a good market value, and ommission men expect a slight adstock has been cleared away.

COLONEL BEADLEY WILL WIN. Looks Very Much Like Republican Success

in Kentneky. Ashland, Ky., Oct. 18.-One of the most remarkable demonstrations ever seen in Kentucky's political history oc-curred here today when William O. Bradley, Republican candidate for governor, spoke to 15,000 people. It was such an outpouring as will probably never be witnessed again in this state. and added convincing weight to the claims of his party friends that Bradelection is really a certainty. Colonel Bradley, upon his arrivel last night was met by a large delegation of both Republicans and Democrats, who escorted him to the handsome suburban tioms of Captain James C. Bryant, a prominent leader of the Democracy, who has this year broken away with others of his party and is supporting the Republican position on the curren-cy question, and because of misman-agement of state affairs.

Captain Bryant, to day in introducing Colonel Bradley, spoke of having pre-viously differed with him, but that he has since become convinced of his mis-take, and will support the Republican candidate and the entire state ticket. The scene that ensued when Captain Bryant turned and took the Republican leader by the hand and said that honest Democrats who love their state and country interests above party considertucky's next governor is without a par-fuld. The immense concourse arose and yelled themselves hourse; hats, canes and handkerchiefs went spontaneously into the air, and this lasted

for a full half hour. It was a demonstration that evinced plainly the way the tide is going. Col-onel Bradley's popularity with these mountain people is unbounded. His speech was able, conciliatory, effective. speech was able, conclinatory, effective—dealing in facts and figures, and appealing for support in the interest of rood national and state government. He abused no one. He is making his contest upon high ground, and because he is honestly convinced that the time has arrived for a wholesome change for the better in this state. Colonel Bradicy also spoke yesterday afternoon at Grayson to 5,000 people, and coming here his train was flagged enroute by 500 miners who compelled him to alight and address them, bringing him on another train later to this city. Bradley's tour through the state has been one continuous ovation. one continuous ovation.

COTTON MARKET

John Derby was up from his farm last night. He says they are not taking much interest in politics down his way. John is so busy that he has had no time to even talk with his neighbors for al-

most three weeks.

wagons and street cars. Perhaps no such scene has been witnessed in this city before in years.

The cool weather has curtailed the

It is said that 300 per cent more Kaffir are that considerable of a reduction will corn was raised in Sedgwick county have to be made in order to dispose of this year than at any time in the past the immense stock on hand. For every The yield is from 50 to 125 bushels per kind of fruit the demand is not nearly acre, and the grain is said to make equal to the supply and the result is excellent feed for stock.

Jim Williams, S. W. Bailey and J. B. Brinley are in Arkansas and were to have returned before this, but their friends are of the opinion now that they will not return until after the Corbett-Fitzsimmons mill has been decided. A jury has been engaged three days in trying a case arising over the estate of Sarah Kennedy in the probate court. The cost of the case will doubt-lessly cut a large hole in the property of the deceased. The poor have none of

this trouble to leave their heirs. The attention of policemen is called, by a citizen, to an ordinance of Wichita, making it a fine for persons leav-ing horses unhitched on the streets. There is not a day but a dozen horses can be found in this condition between Douglas avenue and the court house. This state of affairs is very dangerous

to both life and property. J. M. Sommers of Wichita was elect-ed great sachem of the Great Council of Kansas at the annual meeting of the Imperial Order of Red Men at Hutchinson. The sessions of the council closed Thursday, Mr. Sommers was junior sagamore last year and the Wichita contingent are naturally elated at his success and the honor conferred

The Central Baptist church have moved from Garfield hall to the commodious brick edifice known as the Friends' church, built in 1887, and b cated on East Douglas and Cleveland avenues. The Central Baptist people have leased it for a number of years. Paper hangers and carpenters are at work on the interior, getting it ready for Sunday. At which time all the regular church services will be held at the

usual hours. It was refreshing yesterday to go up to the court house and talk with the farmers. They are feeling better than they have been for a long time. They think the prices of crops will keep up pretty well and hence most of them are cribbing their corn. It is no uncommon thing for a man to walk in unon mon thing for a man to walk in upon Deputy County Clerk John Chain and ask him to figure out how much lumber it takes to build an addition to a crib for 1,500 and 2,000 bushels of corn. John an expert in figuring lumber and by the time they leave there for the lumber yard they know just what they want, what they will cost and how much the entire bill will be. They are all for the Republican ticket, too. That is all that are putting up additions to their corn

THE man who boasts that be works with his head instead of his hands is respectfully reminded that the woodpecker does the same, and is the bigrost kind of a bore w that.—Waterloo Courier.

in the Industrial Markets-Cotton Market Partly Cornered-Halt in Cotton Prices on the Gold Export Situation-Wheat Does Not Go Out Freely and the Price Changes Very Slightly, Considering the Situation-New Business in Iron is Scarce-Bradstreet's Review.

New York, Oct. 18,-R. G. Dun & Co's. Weekly Review to Trade, which issues tomorrow, will say: The events of the week are promising in general, though to speculative markets not encourag-

The great advance in cotton has arrested exports and so deranged exchanges that shipments of gold were for a New York, Oct. 18 .- Agents have admarket indicates that the natural move Excelsi

It has been twice in no distant years by Liverpool speculators.

Spinners here and abroad with much unanimity refrain from buying largely at current quotations. Until the price recedes far enough to bring out a liberal supply of cotton bills there will be a possibility of gold exports, for other merchandise exports are small from New York, for two weeks being 10 per cent less than last year, with imports cloths firm at 34, cents for spots; fair cent less than last year, with imports in the two weeks of October 29 per cent larger than last year. In September dutiable imports were 54.2 and for nine months 53.8 per cent larger than last

Wheat does not go out freely and the aftempt to advance prices on Monday was followed by an immediate decline. The Atlantic exports (flour included) have been in the past three weeks 4.558.455 bushels, against 7.248.111 last year, and the big shipments from Russia and of late from Argentine show that the world is not obliged to pay Atlantic prices for American wheat. Western receipts for the week were remarkably large, 7.733.090 bushels, and for three weeks 21.638.977, against 14.017.261 last year. The rush of wheat to market and the largest output of flour ever known at Minneapolis are not evidences of a great shortage in yield, but the price has changed only an eighth cent for the week. Corn is stronger without clear reason, for while exports in the three weeks are 3.326,284 bushels, recent Wheat does not go out freely and the in the three weeks are 3,325,284 bushels, against 226,703 last year, but an insignificant fraction of the great yield can have been disposed of.

The iron industry is still fully engaged on old orders, but new business is so scanty that many of the works are seek ing it at some concessions in price, and only large contracts have been made at \$1.75 to \$1.80 for bridge plates quoted at \$1.90 to \$2.00. Quotations are not lower, although a good order commands some discount. Billets sell at \$21 and rods at \$28 at Bittshure. some discount. Billets sell at \$21 and rods at \$28 at Pittsburg. The want of business in wire and nails continues. Mills have to compete in pig iron and other products with speculators who took large quantities on advancing prices, and actual consumption cannot be fairly measured unless the speculators are out of the way.

Textile manufacturers have a strong market for materials to support them. But scarcely any advance is seen this week in cotton goods, though the rise

week in cotton goods, though the rise for the month has averaged 4.1 per cent and there seems such a halt as appear-ed a month ago in iron products. The price of some worsteds have advanced because of advances abroad, but it is most three weeks.

Captain J. B. Thompson of Tarkio, Mo., was a visitor in the city yesterday lie has some property intesests here that he comes to look after annually. He very positively pronounced himself against prohibition.

The police commissionres received etters yesterday from Governor Mor-Failures for the week have been 263 in the United States against 253 last year, and 46 in Canada against 43 last year. BRADSTREET'S TRADE REVIEW. New York, Oct. 18.—Bradstreet's to-morrow will say: There is less push to the general commercial movement this week, as is indicated by reports from eastern jobbers and others whose travelers have returned from trips west and northwest. There are, of course, noteworthy exceptions. Baltimore merchants find a relatively more satisfactory trade. This is largely due to the remarkably favorable conditions, except north of Missouri and Kansas, where there is no change from the previous moderate volume, or where recent weather condition have checked trading somewhat. All lake ports report an active demand for tonnage and firm rates. Kansas City announces an active week in commercial circles, as do Chicago and St. Louis with the outlook. travelers have returned from trips west Chicago and St. Louis with the outlook for a good season's business. At the northwest the "hold your wheat" sentiment is spreading, but thus far does not appear to have much effect.

Exports of wheat from both coasts this week (flour included) amount to 2.409.000 bushels, against 2.244.000 last week, as compared with 3.192.000 in the same week a year ago, 2.709.000 two years ago, and with 2.709.000 to the years ago. Chicago and St. Louis with the outlook

ars ago, and with 3,270,000 in the week

BANK CLEARINGS.

NOTWITHSTANDING THE FAVOR ABLE NEWS OF THE DAY.

dicate Produces a Break in Foreign Exchange Rates, and the Gold Exporting Pressure is Removed for the Time-Union Pacific Reorganization Plan's Publication Followed by Interesting Derelopments-Exchange Situation Causes

1.6 New York, Oct. 18.-The volume of ess in stocks today fell considerably below the recent average. The course of prices was irregular and the motive power came chiefly from pool manipulation and the pool traders.

The news of the day was for the most part favorable, but the speculation lacked snap throughout. The publicatime apprehended, but the break in the vanced prices as follows: Amoskeag tion of the plan of reorganization of the market indicates that the natural move Excelsion checks and stripes 1/2 cent. Union Pacific was today followed by market indicates that the natural move ment of the product may soon be restored. The halling of demand and moderate yielding of prices in the great industrial markets show that a season of reasonable attention to natural conditions has arrived.

The cotton market has been partly cornered for early delivery by a New Orleans operator and his followers, as it has been twice in no distant years by Liverpool speculators.

Excelsior checks and all strings developments of interest bearing upon the outlook for its rehabilitation. These consisted of the formal withdrawal of cross solid prints is cents. Risters and Red Cross solid prints is cents. River Point to 5 cents. Washington Imperial prints to 5 cents. There was no general demand apparent but an irregular prints to 5 cents. There was no general demand apparent but an irregular prints in the famous action in the suit brought by the Soldiers' Orphan home of St. Louis against Russell Sage and other Gould estate executors and the official announcement of the retirement of the Deutcher committee, represent a minority of the Kansas Pacific railroad.

The most important event of the outlook for its rehabilitation. These consisted of the famous action in the suit brought by the Soldiers' Orphan home of St. Louis against Russell Sage and other Gould estate executors and the official announcement of the retirement of the famous action in the suit brought by the Soldiers' Orphan home of St. Louis against Russell Sage and other Gould estate executors and the official constitution. Union Pacific was today followed by

The most important event of the day was a break in the foreign exchange market in connection with the purchase, by a powerful syndicate, of a large interest in the Anaconda cop-per mine. The rale of a large block of Fall River, Mass. Oct. 18.—Print cloths firm at 3¼ cents for spots; fair demand for contracts at 3 5-16 cents; mills refuse to sell spots and are slow exchange in connection with the operation, temporarily removes the prospect of gold exports to Europe. A shipment of \$400,000 fbr Buenos Ayres was

not definitely explained. Realizations of profits in several of the iron properties accounted for heaviness in that group and Tennessee Coal was affected by special considerations. It was reported that an agreement had finally been reached between the lines formerly members of the old Southern Railroad and Insurance association for

Boston, Mass., Oct. 18.—The Boston Commercial Bulletin will say tomorrow of the wool market: The sales show a falling off from the recent large business. This is partly due to the fact that the big worsted mills have already bought wool in some cases that will not be used until February. The small woolen mills, are not well supplied with orders. To this check in the demand has come the further damper of a slight reaction in London and the opening of the Australian clip at 15 per cent above last year's prices, but 5 per cent below recent London sales. The recent sales of Montana wool for export have not been shipped. Another storage rates, to go into effect Novem-ber 1.

The easier tone of the foreign ex-The casier tone of the foreign ex-change market has a strengthening in-fluence on the stocks and advances were effected extending to 1 per cent in Sugar and to important fractions in the leading shares. The upward movement induced realizing sales. Exceptionally weak features were Laclede Gas, which broke 3% per cent, to 24% per cent, and Starch first preferred, which lost 5% per cent, to 50 per cent. In the last hour a general selling movement set in which caused the loss of most of the earlier improvement in the general list. recent below recent London sales. The recent sales of Montana wool for export have not been shipped. Another but smaller lot of 117,000 pounds fine medium Idaho was, however, shipped to England last Saturday. The price was low, 101-2 cents, to cost 33 cents clean. The sales of the week are 4, 437,000 pounds domestic and 1,674,000 pounds foreign, against 7,154,000 pounds domestic and 2,382,000 pounds domestic and 483,900 pounds foreign last week and 1,604,300 pounds domestic and 483,900 pounds foreign for the same week last year. The sales to date show an increase of 13,509,389 pounds domestic and 44,994,100 pounds foreign for the sales to the same date in 1894. The receipts to date show a decrease of 17,977 bales domestic and an increase of 212,018 bales foreign. Tennessee Coal dropped to 41 per cent against 42% per cent, yesterday's final sale. The explanation offered was the dental of reports of the impending payment of the accrued dividens on the pre-ferred stock. The market closed with net changes in either direction slight. The trading in bonds was animated and irregular. The securities embraced in the Union Pacific system received

substantial support on announcement of the plan of reorganization, the Texas and Pacific and St. Louis Southwestern issues were notably weak, which was in a measure attributed to the re-cent unfavorable exhibits of earnings made by the companies. The loss in traffic returns is said to be caused by the slow movement of cotton, as a re-sult of the bull movement in that sta-ple at New Orleans. The principal net changes are: Northern Pacific and Montana first trust receipts and St. Louis Southwestern seconds 3 per cent. KANSAS CITY.

BRADSTREETS STOCK REVIEW New York, Oct. 18.-Bradstret's review of the stock market tomorrow will say: Speculation on the New York stock exchange for the past week has been altogether professional. The pub-lic has been frightened by the fear of a collapse of the inflated mining speculation at London. This fear proved to be groundless and the fortnightly nt went over without any disasters whatever. At the same time the London market is nervous and appre-

Another disturbing influence was found in the sudden and rapid advance in exchange rates. The current specu-lation in cotton having reached an extreme, the supply of commercial bills against such exports was cut off owera to purchase on any such basis. This caused a rapid advance, under which the current figures for demand sterling We refer you as 10 tank. The Johnston-erimer Dry Goods Co. Kansus National arimer Dry Goods Co. Kansus National ink. J. D. McEwen, Wholesale Produce Express Companies. Remase from \$4.87% to \$4.88%. Gold ship-ments were confidently expected and bear traders put out shorts on that basis. The subsequent break in exchange rates to \$4.874.4874 is a suffic equent break in ex-

"Break-down and nervous prostration

It is the nervous men and women who most readily fall into that unfortunate class, and anything that does away with nervous weakness will cure the depression, irritability and the nagging habit that so often accompanies a rundown nervous condition.

Persons who lead an active life need something to invigorate their nerves and to give them freed, ruddy blood. It is the rebellious nerves overtaxed by domestic duties, added to the constant living in the vitiated atmosphere of indoors that reduces the nervous strength of so many women.

Prof. Edward E. Phelps, M. D., LL. D., presented to his profession the re-
